

The TREVAYNE

Tree Sponsorship Scheme

Donations

Please support our Tree Scheme.

Your contribution will go directly to the purchasing, planting and care of new trees in and around Trevayne. We've already planted 6,500 trees so far ... so we think it's a great investment for the future and we encourage you to get involved.

The Aims:

To help the environment by allowing visitors to offset part of their carbon emissions by sponsoring trees.

To link Lodge Woods with Swallow Tree Woods creating a wildlife corridor for lots of animals.

To provide a natural protective shelter belt around the western side of the holiday park.

To develop and improve the existing woodland environment by only using Welsh broad leaved native species.

To enhance Trevayne in a sustainable way and encourage its visitors to be more environmentally friendly.

Sponsor a tree!
